

# THE WAY WE CLEAN HAS BEEN CHANGED FOREVER

With the current Coronavirus Pandemic, we now must take extra steps to ensure the safety of our employees and their work environment. Ordinary office cleaning will no longer be satisfactory. A clean workplace will now require extra measures.

**WHAT STEPS CAN I TAKE TO PROTECT MY EMPLOYEES FROM BEING INFECTED AND GETTING SICK?**

**HOW DO I BEST PREPARE MYSELF, MY WORKPLACE AND THE PEOPLE UNDER MY CARE?**

High Tech Cleaning Company employs the use of the **EMist Electrostatic Backpack Sprayer**. This machine is designed to allow the professional to treat up to 30,000 square feet on a single tank of anti-viral disinfectant. Using the Electro-Static sprayer technology, an electrical charge is applied to **DISINFECTANTS**, allowing them to wrap conductive surfaces with an effective disinfectant and even coverage. Not just flat surfaces are treated, but all surfaces.

**Whether it's an assisted living facility, clinic or hospital, operating room, gym or school, running a healthier operation begins with a healthier environment.**
